Uddybende beskrivelse

Your thesis work is carried out under supervision of a member of staff and constitutes a small research project that you conduct independently or in a small group. Supervision times should be coordinated with your supervisor during term.

### Guidance on the use of quantitative methods in projects and theses

If you and your group find quantitative analyses relevant to answer your research question, and your supervisor cannot help, here is an offer of assistance. We offer a workshop where a group of researchers will talk about how to use quantitative data in projects and theses. We will present an overview of publicly available data sets, as well as the your possibilities, if you wish to collect your own data. We expect you to have taken a course in basic quantitative methods (BC 8 or equivalent).

**The workshop is held on March 1,  
12:15-02:00 pm, in theory room  
25.3-005**

After the workshop you/your group will have the opportunity to book an appointment with a skilled student, who will help with downloading and preparing data for analysis and interpretation. If you need extra guidance on any particular issue, you will be referred to a relevant researcher. **Contact information to follow**

Pensum

Determined individually in collaboration between student and supervisor

Tilrettelæggelse og indsats

**\*\* Workload \*\*** The MA thesis accounts for 30 ECTS, which corresponds to 810 working hours and is distributed over the semester at approx. 40 hours a week. The tasks include preparation for and participation in supervision meetings as well as independent work on the thesis and exam.

**\*\* Activities \*\***

Students will learn to work independently on their MA thesis.

At regular meetings with their allocated supervisors, they will receive feedback on draft sections of the thesis.

At regular supervision meetings students will also be expected to engage critically and discuss the overall development of the thesis as well as, among other things, the merits and limitations of their choice and use of scholarly literature, theoretical framework, methodological approach, case study and empirical data and analysis.

Udbudsformat

## Undervisningsevaluering

The activity are evaluated regularly regarding the study board evaluation procedure. The activity responsible will be orientated about a potential evaluation of the activity at semesterstart. Se link to the study board evaluation praxis here <https://intra.ruc.dk/nc/for-ansatte/organisering/raadnaevn-og-udvalg/oversigt-over-studienaevn/studienaevn-for-internationale-studier/arbejdet-medkvalitet-i-uddannelserne/>

## ASSESSMENT

### Læringsmål

### Prøveform

Master thesis written individually or in a group. Permitted group size: 2-4 students.

The student(s) can choose whether the assessment should be based on solely the written product or on both the written product and the oral exam.

The character limits of the master thesis are:

for 1 student: 115,200-163,200 characters, including spaces.

For 2 students: 141,600-182,400 characters, including spaces.

For 3 students: 163,200-204,000 characters, including spaces.

For 4 students: 172,800-223,200 characters, including spaces.

The character limits include the cover, table of contents, summary, bibliography, figures and other illustrations, but exclude any appendices.

The master thesis must include a summary. The summary can either be written in English or Danish.

The summary is included in the overall assessment.

Before submitting a master thesis written by a group, that have chosen an assessment solely based on the written product, each member of the group must clearly indicate which part(s) of the thesis they are responsible for.

All group members are responsible for the introduction, conclusion and summary.

The oral exam is individual for students that have written the thesis alone, or students that have requested an individual exam. All other oral master thesis exams are conducted as group exams.

Time allowed for exam including time used for assessment for:

1 student: 30 minutes.

2 students: 60 minutes.

3 students: 75 minutes.

4 students: 90 minutes.

There will be an individual assessment of each student's performance.

	<p>The assessment is an overall assessment of the master thesis and, where relevant, the oral performance.</p> <p>Writing and spelling skills in the thesis are part of the assessment and will count for 5 percent.</p> <p>Permitted support and preparation materials at the oral exam: All.</p> <p>Assessment: 7-point grading scale. Moderation: External examiner.</p>
Omprøveform	Samme som ordinær eksamen / same form as ordinary exam
Prøveform ved særlige tilfælde	
Prøveform og bedømmelseskriterier (udmøntet)	<p>Knowledge and understanding of the academic genre and the academic audience to which the master thesis is addressed.</p> <p>Skills in using and mastering scientific theories and methods while working with a defined, professional and relevant research question</p> <p>Proficiency in identifying scientific research questions</p> <p>Skills in analysing, categorising, discussing, arguing, reflecting and evaluating on a scientific basis</p> <p>Skills in critically addressing and choosing scientific sources, literature, theory and methods</p>
