REGISTRATION AND STUDY ADMINISTRATIVE

| | |
|------------------------------|--|
| Registration | <p>Registration is through stads selvbetjening within the announced registration period, as you can see on the Studyadministration homepage.</p> <p>When registering for study activities, please be aware of the potential conflicts between study activities or exam dates. The planning of activities at Roskilde University is based on the recommended study programs which do not overlap. However, if you choose optional courses and/or study plans that goes beyond the recommended study programs, an overlap of lectures or exam dates may occur depending on which courses you choose.</p> |
| Number of participants | |
| ECTS | 5 |
| Responsible for the activity | Olivier Rubin (rubin@ruc.dk) |
| Head of study | (NONE@ruc.dk) |
| Teachers | |
| Study administration | ISE Registration & Exams (ise-exams@ruc.dk) |
| Exam code(s) | U60378 |

ACADEMIC CONTENT

| | |
|----------------------------------|--|
| Overall objective | <p>A practice-oriented methodology course aims to equip students to competently apply a given technique or tool that is frequently used in practice.</p> <p>The course equips students to argue for the applicability and relevance of the technique or tool to the problem, and to apply the technique or tool in work situations.</p> |
| Detailed description of content | <p>"Conducting comparisons is an integral part of almost all research and academic practices. This course allows participants to master different comparison strategies and provides insights into the advantages and disadvantages of various methods for comparisons on different analytical levels. These skills should help participants in practice to improve the research design of various studies such as projects or master theses.</p> <p>Participants are introduced to both basic as well as advanced tools for conducting political comparisons including (but not limited to) single-country comparisons; few country comparisons; many countries comparisons; counterfactual and before/after comparisons; deductive comparisons; inductive comparisons; most similar case comparisons; most different case comparisons; the nested approach for comparisons, and fuzzy sets comparisons.</p> <p>Emphasis will be given to displaying the utility of these comparative tools and approaches in practice, across local, regional and global levels. The students will also be exposed to critical reflection on these approaches and tools.</p> <p>"</p> |

"

Overall plan and expected work effort

The course is a 5 ECTS and has a total of 135 working hours for students. The hours are thought to be divided as follows: course participation 20 hours; preparation for courses: 75 hours; exam preparation 10; exam assignment 30 hours.

Format

Evaluation and feedback

"The activity are evaluated regularly regarding the study board evaluation procedure. The activity responsible will be orientated about a potential evaluation of the activity at semesterstart. Se link to the study board evaluation praxis here <https://intra.ruc.dk/nc/for-ansatte/organisering/raadnaevn-og-udvalg/oversigt-over-studienaevn/studienaevn-for-internationale-studier/arbejdet-medkvalitet-i-uddannelserne/>"

Programme

See moodle.

ASSESSMENT

Overall learning outcomes

At the conclusion of the course, students will be able to:

- Explain and evaluate key concepts relating to the given technique or tool, using academically relevant terminology
- Argue for the utility of the technique or tool in practice
- Master the application of the basic functions of the given technique or tool
- Take a critical position in relation to the use of the technique or tool in practice.

Form of examination

Individual written take-home assignment.

The character limit of the assignment is: maximum 12,000 characters, including spaces.

The character limit includes the cover, table of contents, bibliography, figures and other illustrations, but exclude any appendices.

The duration of the take-home assignment is 48 hours and may include weekends and public holidays.

| | |
|--------------------------------------|---|
| | Assessment: 7-point grading scale. |
| Form of Re-examination | Samme som ordinær eksamen / same form as ordinary exam |
| Type of examination in special cases | |
| Examination and assessment criteria | <p>"Explain and apply key concepts and approaches relating to key comparative tools and approaches such the most-different research design, most-similar research design, nested approach, fuzzy sets and others.</p> <p>Argue for the utility of these comparative tools and approaches in practice, across local, regional and global levels.</p> <p>Master the application of these comparative tools and approaches, including the selection of cases, to concrete cases at different levels.</p> <p>Take a critical position in relation to the use of these comparative tools and approaches in practice. "</p> |
